User Story Description

As a Generalist SME

I want to view my credits balance

So that I can I know how much I owe

Acceptance Criteria

1. The user is able to view total credits amount
2. The total credits should be sum of all the credit account the user has
3. ~~The user is able view breakdown of each saving account that includes:~~
 - a. ~~Account title~~
 - b. ~~Account balance~~
 - c. ~~Last update date (which prevents any discrepancies of balance amount with real time balance that user sees)~~
4. ~~The user is able to view details of each account when clicks on account which will lead the user to the 'account overview' page~~

Design Log (1/21/2021):

- For beta version, the account part on the dashboard is not clickable. For future releases, could use A/B testing or other user testing methods to examine if more functionalities are needed for account.

Specs by Example & Business Rules

#	Given	When	Then	Business Rules
1	The user is on the dashboard page	The user is browsing the account section	The user is able to view the total credits amount	
2	The user is browsing the account section	The user clicks on the account	The user will stay on the same page as the account part is not clickable	

Dependencies

- CWB Investment Account Rules
- ~~Third party integration limitations~~
