**Subject:** FW: PCR Updates

Hi Paul,

Can you please provide your approval for the attached PCR for suppressing internal CWB IP addresses from triggering ORT021?

Thank you,

Hello Alvin,

I have attached the estimation for ORT021. Please provide approval for us to move forward. The changes for ORT032 was already made and confirmed by Reddy for the reference field changes. Lastly, for the PCR on bene and transaction recipient, can you add the rules into the PCR? Also, this

will require that you update where in the rule logic for those desired rules you want these scenarios inserted. This seems to be a slightly larger PCR than the other two.

Thank you,  
Luke
