## User Story Description

As a Generalist SME

I want to view other account balances

So that So that I know how much money I have for the other accounts

## Acceptance Criteria

1. If the user has less than 5 accounts in total ( including favorite accounts), other accounts will be display as separate items including:
  - a. Account Name
  - b. Account Balance
2. If the user has more than 5 accounts in total, other accounts will be displayed as a combined value:
  - a. Account Name = Other Accounts
  - b. Account Balance = Sum of all other accounts that are not displayed on dashboard

Assumption:

- 'Other Accounts' means accounts that are not already displayed on the dashboard

## Specs by Example & Business Rules

#	Given	When	Then	Business Rules
1	The user has 4 accounts in total	The user is browsing on the account section	The user is able to view 4 account names and their balances	
2	The user has 8 accounts in total ( 3 of them are favorite accounts)	The user is browsing on the account section	The user is able to view 3 favorite accounts with the name and balances.  The user is able to view other account and balances would be the added value of 5 accounts
